

Intro

Hello, im Vinícius Piva

Senior Product Designer

Based in São Paulo.

I'm a designer who codes (front-end). I strive to create simple, original, and impactful user experiences. I take on projects of all sizes: from web design and build, to product strategy, growth, and marketing.

Design Process, Tools & Skills

With over a decade of experience in the industry, I started my career as an Advertising Designer before transitioning to UX/UI Design **10 years ago**. I have collaborated with teams of varying sizes and industries. I'm particularly passionate about designing systems and operations that simplify complex processes.

Im familiar with:

UX / UI

2018-2021 - Full time job

Oi Telecom [ecommerce / chatbot]

Oi is the largest telecom provider in Brazil with 48 million clients. The challenge in e-commerce (using Oracle Framework) was to make the full journey for digital product acquisition. The result is that the company had **17% of the sales moved to the e-commerce** in the first 6 months after launch - with automated leads, sales and support.

Chatbot [Joice]

Artificial intelligence (chatbot) using NLP Framework (Watson).

- Research, discovery and data analysis.
- Data Driven User Journey / Experience
- Conversational Design and prototyping.
